

## EDUCATION

---

### London School of Economics and Political Science

*MSc Economic History(Merit)*

*Sept. 2024 – Sept. 2025*

### The 11th Summer School for Quantitative History

*July 2025*

### Beijing Foreign Studies University

*Bachelor of Economics in Finance(GPA:3.75/4)*

*Sept. 2020 – Jun. 2024*

## RESEARCH INTERESTS

---

Economic History and Development Economics, with a particular focus on gender, culture, and historical demography.

## RESEARCH EXPERIENCE

---

### Genealogy Research of China (Supervisor: Melanie Meng Xue - LSE)

*Research Assistant*

*Sept. 2024 – Present*

- Processed and analyzed over 190,000 genealogical records to build a comprehensive dataset for demographic analysis.
- Constructed and Calculated key demography indicators such as population growth rate, sex ratio, and migration rate
- Produced descriptive statistics and visualized demographic indicators using Excel, Stata, QGIS, and Python
- Performed regression analysis, and finally generated analytical outputs for a working paper

### Women and Asylum (Supervisor: Melanie Meng Xue - LSE)

*Research Assistant*

*Feb. 2025 – Present*

- Developed and implemented an automated OCR workflow for historical text materials using Claude API and Python

### Catholicism in 20th-century China (Supervisor: Yiling Zhao - Peking University)

*Research Assistant*

*Mar. 2024 – Jul.2024*

- Collected the information of Catholic Church through local religious gazetteers, and finally compiled a county-level dataset on Catholic activities in 1919 China
- Visualized the data by ArcGIS, primarily presenting the comparison between Planchet (1919) and Religious Gazetteers
- Estimated baseline regressions using Stata

### National Resource and Economy Research Center at Peking University

*Research Assistant*

*Jun. 2023 – Aug. 2023*

- Collected literature on carbon neutrality
- Collected energy-related data of 23 countries in North and Middle America, including their energy reserve, and energy consumption, etc. and formulated these data in Excel
- Elaborated on energy strategy and energy policy of these countries since the 21st century in Word and summarized these data in a systematic report

## AWARDS

---

### Xu Gehui Alumni Scholarship

2022

- Merit-based scholarship granted to students within the top 5 percent GPA ranking

## COURSES

---

**Undergraduate Courses:** Intermediate Macroeconomics (95), Intermediate Econometrics (90), Statistics (96), Advanced Mathematics (98), Chinese History (93), International Finance (91)

**Graduate Courses:** Quantitative Analysis in Economic History(Distinction); Population Dynamic and Economic Growth: A Historical Perspective (Distinction)

## SKILLS & INTERESTS

---

**Computer Skills:** Statistical Analysis (Excel, Stata, Python); GIS Mapping (QGIS, ArcGIS); OCR and text analysis (Claude API, Python)

**Languages:** Chinese (Native), IELTS 7.0
