INTRODUCTION

These ISU Bocconi Scholarship Application Requirements and Regulations are provisional and subject to integrations and/or modifications following the publication of the Resolution of the Regional Council of the Lombardy Region ("D.G.R. 2027") and any possible ministerial updates related to the Right to University Education.

The D.G.R. 2027, which will be published presumably in June 2027, annually defines criteria and funding estimates for the assignment of benefits for the Right to University Education and defines the amount of the scholarships and the upper limits of the ISEE/ISEEU indicator (Equivalent Economic Situation Indicator) and the ISPE/ISPEU indicator (Indicator of the Economic and Financial Situation) to access the 2027-2028 Right to University Education benefits

The regional provisions and any ministerial updates will be set out in the final ISU Bocconi Scholarship Application Requirements and Regulations 2027-2028, which will be published after the D.G.R ~~2026~~ 2027 and therefore presumably in July 2027, as this provisional ISU Bocconi Scholarship Application Requirements and Regulations on the dedicated page of the Bocconi website (www.unibocconi.eu/isu).

If, as a result of the D.G.R 2027, the upper limits of the ISEE/ISEEU parificato and ISPE/ISPEU parificato indicators for the a.y. 2027-2028 will be increased with respect to those defined for the a.y. 2026-2027 (Chapter II, art. 7) the final ISU Bocconi Scholarship Application Requirements and Regulations 2027-2028 will foresee a reopening of the ISU Bocconi Scholarship Application a.y. 2027-28 deadlines (**August 24 - September 3, 2027**) for ONLY those students who did not submit the application by June 25, 2027 (Chapter II, art. 9) and who, by virtue of any potential increase, may fall within the new upper limits of ISEE/ISEEU parificato and ISPE/ISPEU parificato indicators that may be updated in the final ISU Bocconi Scholarship Application Requirements and Regulations 2027-2028.

Only students who already hold a valid ISEE/ ISEEU Parificato Certificate issued by the deadline applicable to their enrollment session may participate in the second application window.

ISEE/Equivalent ISEEU Certificates issued after the applicable deadline will not be accepted.
It is specified that the application for the ISU Bocconi Scholarship a.y. 2027-2028 submitted in the first time window (November 12, 2026 - June 25, 2027) and in the possible second time window (August 24 - September 3, 2027) will in any case remain the same, resulting in the rankings (First Year and PhD and Years Following the First) as detailed in the final ISU Bocconi Scholarship Application Requirements and Regulations itself.

ART. 5 - NUMBER OF SCHOLARSHIPS

The total number of scholarships made available through application to students regularly enrolled in a Bocconi University Bachelor of Science, Integrated Master of Arts in Law (five years), Master of Science or PhD program is determined based on the funds allocated by the Lombardy Region.

The final number of scholarships available for the academic year 2027-2028 will be specified in the final ISU Bocconi Scholarship Application Requirements and Regulations 2027-2028 that will be published, similarly to this provisional ISU Bocconi Scholarship Application Requirements and Regulations, on the dedicated page of the Bocconi website (www.unibocconi.eu/isu).
The number of scholarships made available for the a.y. 2026-2027 has been as follows:

The number of scholarships made available through application may be increased based on additional funds and allocations which may be added afterwards by the Lombardy Region, the Ministry of Universities and Research, and any residual funds from the previous year. If additional funds are made available for the current year, further assignments of ISU Bocconi Scholarships will be made, and allocated on the basis of two rankings as set out in Article 10 of these Requirements and Regulations. If funds are available, ISU Bocconi will provide information to applicants via email and/or online and approximately by December 2028.

Students with disability pursuant to Italian Law n. 104/1992 or with civil disability equal or greater than 66% who are in the eligibility ranking, have the right to be awarded a scholarship even if that means that the number of scholarships available will be exceeded.

ART. 6 – MERIT REQUIREMENTS

Art. 6.1 Bachelor of Science, Master of Science and Integrated Master of Arts students

In order to evaluate merit for the ranking, exams taken and recorded in the academic career **by and no later than August 10, 2027** and registered at the Punto Blu will be taken into consideration.
Students should therefore:

- personally verify that all exams taken have been registered at the Punto Blu;
- inform the Academic Services using **B in Touch**, if there are anomalies in the recording of exams completed.

Please note!
In the event of course changes, it should be noted that, for the purposes of calculating the merit, only credits for the Bachelor of Science, Master of Science and Integrated Master of Arts attended at the time of the request of the benefit will be considered valid.
In order to reach the minimum merit requirements needed to enter the ranking for the a.y. 2027-2028, in addition to the credits already earned, **all students, except first-year students**, may use a **"bonus"**, according to the table below.

If students have never used a bonus previously, they can request bonus credits as indicated in the table below. Once students use bonus credits they no longer have the right to accrue other bonus credits, but they still have the possibility to use any residual credits in future years.

Students enrolled in Master of Science programs can use any residual bonus credits not used during their Bachelor of Science program. If they never used bonus credits during their Bachelor of Science program, they have the right to 15 credits.

Please note that the number of credits needed to access the ranking will be calculated based on the credits required for each past academic year, starting with the absolute first-year of enrollment[4]. This rule is also applied to anyone who has interrupted the normal progression of the attended years of the program (e.g. students who repeat or have repeated a year of the program, also after a withdrawal from studies or transferring from another university or changing type of degree program or faculty and other interruptions), except for cases of "temporary interruption" pursuant to article 8 clause 5 of the Decree of the President of the Council of Ministers 9 April 2001.
For students enrolled in the 1st year of a Bachelor of Science, Master of Science or Integrated Master of Arts in Law program, any cash stipend will be **provisionally** granted based on the economic requirements set out in these Application Requirements and Regulations and will be fully or partially confirmed only if academic merit is achieved. Academic merit is evaluated ex post at August 10, 2028.

For students with disability pursuant to Italian Law n. 104/1992 or with civil disability equal or greater than 66%, the provisions set out in Article 3 of Annex C to this Call for Applications remain applicable.

Art. 6.2 – Revocation of 1st Year Students in the a.y. 2027-2028 due to Insufficient Academic Merit (evaluated ex post)

For students who are eligible recipients and non-recipients, enrolled in the first year of the a.y. 2027-2028 who do not obtain the required minimum amount of credits **by and no later than August**

[4] The absolute first year of enrollment shall be understood as any academic year of first enrollment in any kind of degree program (even if different from the one attended in a.y. 2027-2028) which required the same education qualification as the one needed to access the attended program in a.y. 2027-2028, in any University in Italy or abroad, even if the program has not been completed.

10, 2028, the cash stipend, the ISU Bocconi integrations and the services used for the 2027-2028 will be revoked. The revoked eligible student, whether recipient or not, must:

- return the first installment of the cash scholarship received. The revoked eligible student will also not receive the second installment of the cash scholarship, if eligible recipient;
- return the amount received for free meals;
- return any integration for international mobility and/or internships received.

Return of the amounts listed above cannot in any way be questioned or postponed, as the revocations are in fact verified by the Lombardy Region, the institution providing the ISU Scholarship for the Right to University Education.

An exception is made for a revoked student who will be able to achieve the number of credits defined in the table above **by and no later than November 30, 2028**. In this case the student will not receive the amount of the 2nd installment of the cash scholarship and will not be required to return the amounts received, if eligible recipients.

The revoked student will have to pay the academic tuition fees of the academic year 2027-2028, based on the applicable tuition and fees for the a.y 2027-2028, regularizing his financial situation with the Fees, Funding and Housing Office.
An exception is made for the revoked student who will be able to achieve the number of credits defined in the table above **by and no later than November 30, 2028,** who will not have to pay academic tuition and fees for a.y. 2027-2028.

For students with disability pursuant to Italian Law n. 104/1992 or with civil disability equal or greater than 66%, the provisions set out in Article 4 of Annex C to this Call for Applications remain applicable.

For other grounds for revocation for all students regardless of their program year, see Article 15 of this ISU Bocconi Application Requirements and Regulations.

Art. 6.3 - PhD programs

Students in PhD programs may request the ISU Bocconi scholarship assistance on the condition that they are not recipients of scholarships pursuant to Italian DM 224/1999 or Post Docs pursuant to Italian Law 27.12.1997, n. 449.

Students must also meet the merit requirements listed below:

Program year in the a.y 2027-2028	Merit requirement
1st year	Must be declared winners for the a.y. 2027-2028 of the admissions competition for one of the PhD programs offered by Bocconi
2nd year	Must be regularly admitted for the a.y. 2027-2028 in the second year of the program
3rd year	Must be regularly admitted for the a.y. 2027-2028 in the third year of the program
4th year	Must be regularly admitted for the a.y. 2027-2028 in the fourth year of the program

ART. 7 - ECONOMIC REQUIREMENTS

The economic status of students will be identified based on the **ISEE issued in 2027** for **benefits for the right to university study** and the **ISPE**.
The ISEE must be issued in reference to the student's fiscal code and may not contain "omissions/discrepancies/inconsistencies"

The ISPE must be calculated by the University based on data provided by INPS, dividing the ISP value by the scale of equivalency.

In order to apply for a benefit of the Right to University Education students whose family household resides and has sources of income **in Italy** will need to obtain an "Attestazione ISEE per prestazioni agevolate per il diritto allo studio universitario" issued in **2027** whose "ISEE" and "ISPE" values fall within the limits provided. Otherwise, the application cannot be accepted.

Students whose family household resides and has sources of income **outside of Italy** must obtain the **ISEEU Parificato Certificate** issued in **2027**, whose "ISEEU" and "ISPEU" values fall within the limits provided. This document can only be issued by the CAF partnered with Bocconi University (see the related webpage www.unibocconi.eu/isu).
It is specified that the **ISPE/ISPEU parificato** value is calculated by the University by dividing the ISP/ISPU parificato value by the equivalence scale.

The ISEE/ISEEU parificato and ISPE/ISPEU parificato upper limits are defined annually by the Lombardy Region with its own resolution.

The ISEE/ISEEU parificato and ISPE/ISPEU parificato upper limits for the academic year 2027-2028 will be specified in the final ISU Bocconi Scholarship Application Requirements and Regulations 2027-2028 that will be published, as this provisional ISU Bocconi Scholarship Application Requirements and Regulations, on the dedicated page of the Bocconi website (www.unibocconi.eu/isu).

For a.y. 2026-2027, the approved limits have been the following:

- **ISEE/ISEEU parificato no higher than € 26.887,93**
- **ISPE/ISPEU parificato no higher than € 58.452,06**

In addition to the economic requirements outlined above, only students who also meet the minimum income requirement specified below may be considered eligible for the ISU Bocconi Scholarship.

Pursuant to Italian Legislative Decree no. 286/1998 and Italian Presidential Decree no. 394 of 31 August 1999, income declarations certifying an annual income for the 2025 tax year equal to or greater than €**10,179.85** will be considered valid for the purposes of awarding the ISU Bocconi Scholarship, since a lower income would be incompatible with immigration regulations, for the following categories:

- non-EU citizens, regardless of their place of residence, whose family household resides abroad;
- non-EU citizens residing abroad who are considered independent students.

It is specified that the ISEE/ISEEU Parificato certificate submitted for the purposes of this call for applications shall be deemed final. Accordingly, no supplement, rectification, replacement or update of the submitted ISEE/ISEEU Parificato certificate shall be accepted, regardless of the reason provided by the applicant. The only exception shall apply where a rectification and/or integration is expressly requested by the Fees, Funding and Housing Office during the assessment of the application.

The evaluation of the student's economic conditions is based on parameters from the University ISEE/ISEEU parificato Certificate applicable to assisted services for the Right to University Study and other elements derived from the documentation submitted to ISU Bocconi for the a.y. 2027-2028 or gathered during other checks completed by the Office, both during the period following publication of the provisional ranking during the year, and after publication of the final ranking. Further documentation that better certifies the actual economic conditions of the applicant may be requested, in accordance with the provisions of Attachment D of this Application Requirements and Regulations.

The family household is defined pursuant to Italian Decree by the President of the Council of Ministers n. 159 on 5 December 2013.

After ISU Bocconi Scholarship eligibility has been verified according to these criteria, an ISU Bocconi bracket will be assigned to eligible students based exclusively on the ISEE/ISEEU parameters applicable for the subsidized benefits for the right to university study, if compliant.

ART. 8 - INDEPENDENT STUDENTS

In order to adequately consider the subjects who bear the burden of maintaining the student, students shall be considered independent only if both of the following requirements are met:

- Residence, as proven by registry data, outside the housing unit of the family of origin for at least two years before the date of the ISEEU parificato certificate, in accommodation not owned by one of its members; therefore, the student use of an accommodation upon payment must be documented;
- Income from employment or similar work, declared for tax purposes for at least the past two years, not less than € 9,000* annually. The work may not be performed under the employment of a family member within the third degree of kinship.

*Income referred to a.y. 2026-27. The income threshold for the academic year 2027-2028 will be specified in the final ISU Bocconi Scholarship Application Requirements and Regulations 2027-2028 that will be published, as this provisional ISU Bocconi Scholarship Application Requirements and Regulations, on the dedicated page of the Bocconi website (www.unibocconi.eu/isu).

If **both** the above conditions are not met – and duly documented as subsequently indicated in Attachment B paragraphs B.1 and B.2 – the student is part of the parents' family household, and therefore the economic and asset condition of the family of origin will be considered when determining ISU Bocconi eligibility and the ISU Bocconi bracket.

It is specified that the independent student is considered "non resident" only if he/she uses an

accommodation upon payment that must be documented (as defined in Attachment B paragraph B.3) in the Municipality where the attended course of study takes place.

ART. 9 – DEADLINES AND PROCEDURES NEEDED FOR SUBMITTING APPLICATIONS

In order to participate in the application, students have to follow the online procedure available in the Bocconi webpages dedicated to the ISU Bocconi Scholarship Application 2027-2028 (www.unibocconi.eu/isu).

The procedure consists of:

ART. 10 - PROCEDURES FOR ESTABLISHING RANKINGS

The rankings will be determined as follows, for each year of each level of studies:

A. **Students enrolled in the first year of all degree programs** (Bachelor of Science, Integrated Master of Arts in Law, Master of Science) **and students enrolled in a PhD program**:
The ranking is determined in increasing order by the ISEE/ISEEU indicator applicable to assisted services for the Right to University Study of the family household up to the ISEEU 2027 limits for a maximum of 1,000 points given following this formula:

[1-(Student ISEE / ISEE LIMIT)] x 1,000

The ranking is determined in descending order based on the score awarded. In the event of a tie, priority is given to the student with the highest grade obtained in their educational qualification. In the event of a further tie, the younger student takes priority.

Students with disability pursuant to Italian Law n. 104/1992 or with civil disability equal or greater than 66% who are in the eligibility ranking, have the right to be awarded a scholarship even if that means that the number of scholarships available will be exceeded.

B. **Students enrolled in years after the first, in all degree programs** (Bachelor of Science, Integrated Master of Arts in Law, Master of Science):
The order of the ranking is determined in decreasing order from the overall score achieved, adding the score relating to the number of educational credits acquired by August 10, 2027, and the score determined by the weighted grade point average. The highest possible number of points is 1,000 distributed as follows:

- 600 based on the number of educational credits achieved by August 10, 2027 and calculated using the following formula:

  [(student credits – minimum credits*) / (maximum credits** - minimum credits*)] x 600

  * amount of credits established by this Application Requirements and Regulations as a minimum merit requirement
  ** maximum number of credits foreseen for the relevant course year

- and 400 based on the weighted grade point average of exams passed by August 10, 2027

and calculated using the following formula:

[(Student's GPA - 18) / (maximum grade - 18)] x 400

Where merit is equal, the student who has not used bonus credits has priority in the ranking and then the student with the highest income score. Where parity still exists, the youngest student prevails.
Students using their bonus credits will be placed at the end of the ranking.
Students with disability pursuant to Italian Law n.104/1992 or with civil disability equal or greater than 66% who are in the eligibility ranking, have the right to be awarded a scholarship even if that means that the number of scholarships available will be exceeded.

ART. 11 - PUBLICATION OF PROVISIONAL RANKINGS AND APPLYING FOR REVISION

Provisional rankings results can be consulted online by **mid-October 2027** for a period of at least 15 days.
Applications submitted within the deadlines set out in these Application Requirements and Regulations will be verified by ISU Bocconi, who will insert into the ranking students meeting the requirements.

In the PROVISIONAL RANKINGS students may therefore be either:
- ELIGIBLE: if meeting all requirements, or
- NON-ELIGIBLE: if one or more requirements set out in these Regulations are missing.

Any appeals for revision of the provisional ranking must be submitted by and no later than h 11.59 pm of the 15th day after the publication of the same ranking.
Those wishing to submit an appeal for revision may **only** submit it online and provide the necessary documentation to justify the reasons for an appeal.
It is specified that an appeal for revision shall not constitute a new deadline for the submission of an application. Consequently, appeals for revision submitted only for the purpose of remedying omissions, supplementing missing documents, or replacing or updating an ISEE/ISEEU Parificato certificate, will not be accepted.

The results of appeals for revision will be published online at the same time the final rankings are published, approximately within the end of October 2027.

ART. 12 - FINAL RESULTS AND PLACEMENT OF STUDENTS IN RANKINGS

The cash stipends will be assigned to eligible students based on their placement in the ranking, starting from the highest positions until all available resources have been used.
Scholarships will be awarded in accordance with the number set by these Regulations. Should there be a lack of recipients in some rankings, remaining scholarships will be awarded to students in other rankings until the number of scholarships established by the Regulations are all awarded.

In the FINAL RANKING, students may therefore be:
- **ELIGIBLE RECIPIENTS**: meeting all requirements and recipients of an amount of money corresponding to the cash stipend, of the amount defined by the Lombardy Region for a.y. 2027-2028;
- **ELIGIBLE NON-RECIPIENTS**: meeting all requirements, but not recipients of the amount of money of the cash stipend due to lack of funds. In this case, eligible non-recipient students

in the rankings may receive the cash stipend later, if further financial resources are made available;
- **NON-ELIGIBLE**: if one or more requirements set out in the Application Requirements and Regulations are not met.

In addition, the final ranking will communicate the ISU Bocconi bracket assigned to the student. The ISU Bocconi bracket will define:
- the amount of the cash stipend for eligible recipient students;
- the cost of meals at a preferential rate;
- the final amount of housing fees for students assignee of a room in the Bocconi Residence Halls at a preferential rate.

ART. 13 - AMOUNT OF SCHOLARSHIPS

The amount of the scholarships is based on both the ISU Bocconi brackets, corresponding to the family household's ISEE/ISEEU applicable to assisted services for the Right to University Study, and the place of origin of the student, which will determine if the student is a resident student, a commuting student or a non-resident student.

The amount of scholarships available is defined annually by the Lombardy Region with its own resolution.

The final scholarship amounts available for the academic year 2027-2028 will be specified in the final ISU Bocconi Scholarship Application Requirements and Regulations 2027-2028 that will be published, similarly to this provisional ISU Bocconi Scholarship Application Requirements and Regulations, on the dedicated page of the Bocconi website (www.unibocconi.eu/isu).

For the a.y. 2026-2027 the scholarship amounts, which **included** the **free meal amount for € 829,00** defined for the a.y. 2026-2027 from the Lombardy Region and the reimbursement of the regional tax for the Right to University Study, have been as follows:

ISU BRACKET / STATUS	1ST ISU BRACKET	2ND ISU BRACKET	3RD ISU BRACKET
RESIDENT	€ 3.430,00	€ 2.991,00	€ 2.143,00
COMMUTING	€ 4.820,00	€ 4.191,00	€ 3.299,00
NON-RESIDENT	€ 8.248,00	€ 7.172,00	€ 5.857,00

All of the above amounts are halved for *fuori corso* students receiving ISU Bocconi Scholarship.

Art. 13.1 ISU Bocconi Brackets Related to ISEE/ISEEU Parificato Indicators Applicable to the Benefits for the Right to University Education Assistance

The ISU Bocconi brackets corresponding to the ISEE/ISEEU parificato values are defined annually by the Lombardy Region.

The ISU brackets for the academic year 2027-2028 will be specified in the final ISU Bocconi

Scholarship Application Requirements and Regulations 2027-2028 that will be published, similarly to this provisional ISU Bocconi Scholarship Application Requirements and Regulations, on the dedicated page of the Bocconi website (www.unibocconi.eu/isu).

The ISU Bocconi brackets for the a.y. 2026-2027 have been as follows:

ISU Bocconi bracket	ISEE/ISEEU parificato indicators	
1st ISU Bocconi Bracket	from € 0.00	to € 13.443,97
2nd ISU Bocconi Bracket	from € 13.443,98	to € 17.925,29
3rd ISU Bocconi Bracket	from € 17.925,30	to € 26.887,93

Art. 13.2 Place of Origin and Scholarship Amount

Geographical origin does not affect the possibility of accessing the scholarship but only **the amount of the cash stipend** of the scholarship, if awarded.

For the purpose of calculating scholarship amounts only, students are classified as follows:

Resident student "*in sede***"** Students residing in the Municipality of Milan or residing in the surrounding areas and who spend up to 60 minutes using public transport for the daily transfer from home to the course location.

Commuting student *"pendolare"*. Students residing in municipalities from which it is possible to reach the location of the course attended, with public transport, with times of journey between 60 and 90 minutes[5].

Non-resident student *"fuori sede"*. Students with official registered residence ABROAD or in a municipality in Italy more than 90 minutes away from the University (considering public transport travel times), and who, for this reason, rent taxed accommodation in a municipality considered "in sede", using public residential premises or other private or public accommodation for a period of at least 10 months during the period September 1, 2027 – August 31, 2028. In the absence of this condition, potentially "non-resident" students will be considered "commuting". Students may request to be considered "non-resident" through the online procedure; however, this status will be only applied after submission of proper documentation by the deadlines indicated in these Application Requirements and Regulations (Attachment B.3). **For information on how to certify the status of "non-resident", please see the information published on the dedicated pages of the website (www.unibocconi.eu/isu) and which make up an integral part of these Application Requirements and Regulations.**

ART. 14 - METHOD OF PAYMENT OF SCHOLARSHIPS

Scholarship payment will be made to students who are eligible recipients in two installments each amounting to half the total scholarship, and only via **wire transfer** to an **Italian current**

[5] The travel times to be calculated are the minimum ones used, based on the journey by public transport, between the departure station/stop of the residence and the arrival one of the study location, also including waiting times between the intermediate stops.
Journeys on foot or by private transport are excluded.
These times can be checked on the regional website www.muoversi.regione.lombardia.it and, for cities located outside the Lombardy Region, through the Google Maps search tool.

account in the name of or jointly in the name of the student recipient.

Important!
The IBAN must be indicated in a timely manner in the Punto Blu (and it will be used also for any reimbursements from the Fees, Funding and Housing Office), in the personal data section.

The two installments will be paid within the following deadlines, once funds are transferred from the Lombardy Region, as follows:

- **Payment to students in years subsequent to their first year of a study program and to PhD students** whose payment has not been suspended for administrative reasons
  - First installment: by December 31, 2027;
  - Second installment: by July 31, 2028.

- **Payment to students in first year of a study program** whose payment has not been suspended for administrative reasons
  - First installment: by December 31, 2027;
  - Second installment: will be paid not before the month of October 2028 only to eligible recipients (see Article 6.2) that have earned the required number of credits stated in these Regulations on the date of August 10, 2028.

The reimbursement of the regional tax, which will be done for all the eligible students recipients and non-recipients will be processed and included in the reimbursement of the first installment-advance a.y. 2027-2028.

ART. 15 - INCOMPATIBILITY – FORFEITURE – REVOCATION

Scholarships may not be combined with similar forms of financial aid provided by Bocconi University or other private or public bodies. In these cases, students have the option of choosing one form of assistance or the other one.

Exceptions will be made for:

- Scholarships granted by Italian or international institutions aimed at integrating with experiences abroad the study/research activity of candidates;
- Awards given by Universities to outstanding students enrolled in specific excellence programs.

The student will forfeit eligibility for the ISU Bocconi Scholarship if they:

- fail to submit to ISU Bocconi, via registered mail and within the deadlines and using the methods requested by the Office, any original documentation required to check the accuracy of their self- certification; in such cases the application is treated as an untruthful declaration;
- withdraw from studies during the a.y 2027-2028;
- transfer to another University during the a.y 2027-2028;
- are not regularly enrolled in the a.y. 2027-2028.

In addition to revocation due to insufficient academic merit as specified in article 6.2 of this ISU Bocconi Application Requirements and Regulations, the eligibility for ISU Bocconi Scholarship will be revoked if:

- the student incurs disciplinary sanctions imposed by Bocconi University greater than a warning during the academic year;

- the student submits/has submitted false declarations (please see also Attachment D regarding the verification of the economic conditions, the truthfulness of the information provided and the related administrative consequences);
- the student does not lift the reserve on the enrollment for the academic year 2027-2028, **by and no later than November 30, 2027**.

The rule provided for in Article 6.2 is extended to all eligible students, recipients and non-recipients, that incur in revocation and forfeiture, who must therefore:

- Return the amount of the scholarship in cash received, if they are eligible recipients;
- Return the amount received for free meals;
- Return any supplements for international mobility and/or internship received.

Return of the amounts listed above cannot in any way be questioned or postponed, as the revocations are in fact verified by the Lombardy Region, the institution providing the ISU Scholarship for the Right to University Education.

Following the revocation, the student will have to pay the academic tuition fees of the academic year 2027-2028, based on the applicable tuition and fees, regularizing his financial situation with the Fees, Funding and Housing Office.

Students who have been revoked for false declarations will be required to pay the total amount of tuition and fees starting from the academic year in which they first benefited from the waiver as a result of such false declarations. The additional penalties detailed in Attachment D of this Application Requirements and Regulations also apply to these students.

As a consequence of the revocation of eligibility for the ISU Bocconi Scholarship and for what concerns the suspension of services, please note that students in debt to Bocconi University for any reason will be suspended from academic and administrative activities and the payment of the scholarship will be also suspended until their financial position is regularized.

ART. 16 - UNIVERSITY TRANSFERS AND CHANGING DEPARTMENTS

For students transferring to another university after September 30, 2027, the application submitted to ISU Bocconi will be sent to the organization for the right to study at the University where the student has requested transfer, only if requested by the interested party. The student will therefore lose the assistance conferred by Bocconi University and will have to return any money collected.

CHAPTER III – INTEGRATION OF THE SCHOLARSHIP AMOUNT

Upon completion of the allocation process based on the final ranking lists, and only where residual financial resources remain available, the integrations listed below may be awarded until the available financial resources are exhausted and in accordance with the following order of priority:

Integrations for female students in STEM fields

For female students enrolled in study programs in STEM fields, an integration in the amount of the scholarship is foreseen. For details on the integration, it is necessary to refer to the provisions published on the dedicated pages of the Bocconi website (www.unibocconi.it/isu) and which form an integral part of these Application Requirements and Regulations.

Integrations for international mobility programs and foreign internships

Students who participate in an international mobility program (Exchange Program, Double/Joint Degree, CEMS-MIM, Themis) and foreign internships organized or recognized by the University may benefit from an integration of the scholarship amount. Any such integration shall be awarded net of any contributions granted through European Union funds and funds made available by public or private entities.
It is specified that, within the same study program, the student can receive the contribution only once and only for one single activity between those listed above, even if more than one activity has been carried out.
For more detailed information, it is necessary to refer to the provisions that are published on the dedicated pages of the Bocconi website (www.unibocconi.eu/isu)

Integrations for students graduating within the regular duration of the course of study

Students enrolled in a.y. 2027-2028 for their last regular year of Bachelor, Master of Science and Integrated Master of Arts in Law, who are eligible recipients for the same year of the ISU Bocconi Scholarship and will graduate within the regular duration of their study program, will benefit from a possible integration of the Scholarship equal to half of the cash stipend (net of the amount for the free daily meal and the regional tax) obtained during the last year.

Integrations for students enrolled in more than one course of study at the same time

Students enrolled in more than one course of study at the same time are allowed to obtain and maintain the scholarship, increased by 20%, if they meet and maintain the merit requirements for the scholarship for the entire duration of the courses.
The aforementioned increase is not due in the event that the student fails to meet the requirements for the scholarship with reference to the course of study to which the student himself has related the aforementioned increase.

CHAPTER IV - CANTEEN SERVICE

ART. 1 - SERVICES OFFERED

Students will be able to purchase meals at preferential rates at the designated dining areas at Via Bocconi 12 and at Via Sarfatti 25.
Users contribute to the management expenses for this service based on their economic and asset condition.

Eligible students may use the preferential rate service until the day of graduation; starting the day after graduation, they may purchase meals at the full rate, with the exception of students who are enrolled in a Master of Science program at Bocconi after completing a Bachelor of Science program at Bocconi and who are eligible for the ISU Bocconi Scholarship for a.y. 2027-2028. For these students, the right to free meals shall end on November 30, 2028.

Students will not be reimbursed if they do not use the canteen service or if the service is not available for reasons not dependent on ISU Bocconi.

Students who are regularly enrolled for the a.y. 2027-2028 at Bocconi University may take advantage of preferential rate meals if they:

- Are eligible according to the final ISU Bocconi Scholarship ranking;
- Or have obtained preferential rate housing at a University Residence;
- Or request only preferential rate canteen service as defined below and meet the economic requirements set out in Article 7, Chapter II of these Requirements and Regulations, regardless of merit requirements.

ART. 2– HOW TO SUBMIT APPLICATIONS

The following students are NOT required to submit a separate application for preferential rate canteen services:
- Students eligible for an ISU Bocconi Scholarship;
- Guests with a preferential rate at a Bocconi Residence.

Students who have not participated in the Housing Application for preferential rate housing or the ISU Bocconi Scholarship application for the a.y. 2027-2028, but would like to use preferential rate canteen services may submit the "preferential rate canteen service application" through My Application **from 14th to 21st October 2027** (www.unibocconi.eu/isu).

The Office will notify applicants of their ISU bracket for canteen services by the end of November 2027. Preferential rate meal assistance will be valid starting on December 1, 2027 until November 30, 2028 according to the fees that will be published on the Bocconi website.

ART.3 – PAYMENT OF MEALS

Students will be able to purchase preferential rate or full rate meals in the periods indicated on the Bocconi website (www.unibocconi.eu/isu).
