Energy Infrastructures

Towards the creation of a
European Energy Union

12 February 2015

Bocconi

Università Commerciale
Luigi Bocconi

Via Sarfatti 25
20136 Milano

In collaboration with

8:30am
Aula Magna
via Gobbi 5

The conference focuses on the role of energy infrastructures in the creation of a single energy market in the European Union.

This topic will be addressed during two sessions.

The first session will offer the point of view of academia, with a series of presentations that answer questions such as: What role do energy infrastructures play? Who is responsible for cross-border investments? How are these infrastructures being funded? In the second part of the morning, the attention will be on the industry perspective, with a roundtable of CEOs and senior executives from key industry stakeholders, offering their view on the evolution of energy networks.

8:30am Registration

9:00am Welcoming Remarks
