PLOT

The story is set in the futuristic city of San Fransokyo, where a 14-year old techno genius, Hiro Hamada, channels his brilliance into fighting micro-bots in back alleys in secret. This doesn't much impress his older brother Tadashi, a college student at what Hiro calls a "nerd school". Tadashi wants Hiro to channel his talents and along, with his friends, convinces Hiro that nerd school may not be so bad. All these persons are geniuses, but Hiro proves to be their equal, creating mind-controlled nanobot technology to impress Professor Callaghan who holds the key to admission.

However, things turn tragic and Hiro is devastated by the events.

He subsequently comes upon Baymax, a health-care robot that Tadashi was working on, and soon finds evidence that the tragedy might not have been an accident. Hiro changes Baymax's programming and transforms Tadashi's friends - Wasabi, Honey Lemon, Go Go Tomago and Fred - into a high-tech team of superheroes called Big Hero 6 in search of justice.

Only, not really. Hiro is more interested in vengeance. How he deals with that struggle is a touching part of the film.

The film is loosely based on the Marvel Comics series of the same name, published in 1998.

The film won the Academy Award for Best Animated Feature in 2015 and was nominated for the Golden Globe Award for Best Animated Feature Film.

A TIME CLAUSE is a dependent clause beginning with a time word (when, after, before, as soon as, once, until etc.).

The verb tense in a time clause may be different from what you expect.

FUTURE TIME CLAUSES

Use the SIMPLE PRESENT (or sometimes the Present Perfect) in a future time clause. The simple present is preferred.

The test will begin as soon as everyone SITS down, (preferred). The test will begin as soon as everyone HAS SAT down. I plan to move to London once I OBTAIN my degree.

Do not use "will" or "be going" in a future time clause.
